

Circle Sustainable cutlery

Why recycled cutlery?

- > 80% recycled stainless steel
- Reduces the amount of energy and raw materials
- The stainless steel is fully recyclable at the end of its lifespan
- Quality guaranteed
- Food safe

Circle

Sustainable cutlery

Cutlery specialist AMEFA presents Circle, this new cutlery set is made of 2.5mm 18-0 stainless steel and contains a minimum of 80% recycled stainless steel. The recycled material comes from post production material and the remaining < 20% virgin stainless steel is needed to guarantee the food safety and an optimal quality.

For the production of recycled stainless steel less energy is needed which is why by choosing recycled cutlery you contribute to reducing the ecological footprint, decreasing the amount of waste and thus to a cleaner planet.

> 80% Recycled stainless steel

Dishwasher safe

100% Recyclable

Made from 18/0 stainless steel
